SAYS RATES ARE AMPLE

Brandeis Before Commerce Commission

THE OPERATING EXPENSES

Are Declared Excessive—Roads Not Getting Enough for Money—He Repeats His Doctrine of Scientific Economy.

Washington, Jan. 12.—"We contend that rates are ample, but that the expense of operation is excessive; that wages are not too high, but that, as the management is unscientific, labor, material, equipment and plant fail to give adequate result. We plead for the introduction of scientific management, under which the railroads shall get 100 cents for every dollar expended."

In opening his argument for the shippers of the Atlantic seaboard, before the interstate commerce commission yesterday Louis D. Brandeis of Boston, thus presented the fundamental reason in his mind, why freight rates should not be advanced as proposed by the railroads.

Mr. Brandeis declared that no railway company operating in official classification territory had introduced into any of its departments the principles of scientific management. He believed that these principles were properly applicable to railroads as to any other industrial enterprise.

TO CURE A COLD IN ONE DAY take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

\$100,000,000 IN NEW PENN. R. R. STOCK

Directors Decide to Submit the Proposed Increase to the Stockholders.

Philadelphia, Jan. 12.—At a meeting of the directors of the Pennsylvania Railroad company yesterday, it was decided to present to the stockholders at their annual meeting in May a resolution authorizing an increase of \$100,000,000 in the capital stock.

Thousands Have Kidney Trouble and Never Suspect It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

What To Do. There is no one in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you are a sufferer from kidney trouble, you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Auction Sale of Personal Property

M. F. SPENCER, C. N. BARBER, Auctioneer.

A SENATOR UNDER FIRE

Stephenson Accused of Corrupt Practices

BRIBERY IS NOW ALLEGED

On the Part of His Managers—The Wisconsin Senate Committee Reports. Finds That Election of Senator Should Be Annulled.

Madison, Wis., Jan. 12.—United States Senator Isaac Stephenson is charged with a number of violations of the laws of Wisconsin. The charge is made in a lengthy statement filed with Governor F. E. McGovern yesterday by the 1909 state committee, which investigated the primary campaign and election of Senator Stephenson.

The committee recommends that a copy of the report be submitted to the United States Senate and that body investigate Mr. Stephenson's election.

Senator Stephenson is charged with violating the statute which requires an account under oath of campaign expenditures to be filed, and it is also alleged that such violation was premeditated. It is further charged that he violated the law which prohibits anyone from contributing money to assist candidates for the legislature who reside outside of the district in which the contributor resides.

That the civil service law of this state was violated when he caused to be paid money, which the evidence shows was paid to State Game Warden Stone and J. B. Dresser, then president of the board of control.

That he gave a sum of money to a supporter of McGovern for United States senator, such supporter afterward switching to Stephenson, and that he paid large sums of money to others, which was afterward used by them to induce other persons to assist in procuring his election.

"On the whole record, therefore," the report states, "Stephenson is charged with knowledge of the manner in which his campaign was being conducted and the purposes for which money was being disbursed."

"A large part of money distributed in the Stephenson campaign, probably a sum in excess of \$50,000, was used by Stephenson's managers to unlawfully and corruptly procure the nomination and election of Isaac Stephenson to the United States Senate."

Further, Isaac Stephenson was elected by the legislature to the United States Senate by a majority of three votes, while the charges of corruption against him were being investigated by the legislature.

"In addition to the several acts of corruption and fraud herein referred to, it should be remembered that the election of Isaac Stephenson on March 4 was made possible by three Democrats, who, at the instigation of the Stephenson managers and agents, walked out of the joint assembly when it became known that their presence would prevent the election of Isaac Stephenson."

FIND BOMB IN JUDGE'S HOUSE

John E. Owens, Chicago, Elected on the Democratic Ticket, Puzzled Who Foo Is—Fuse Had Been Burned Out.

Chicago, Jan. 12.—A dynamite bomb was found early yesterday in the vestibule of the home of county Judge John E. Owens, recently elected on the Democratic ticket. It was about seven inches long and an inch in diameter, lead covered, and its fuse appeared to have been fired but to have burned out.

Miss Ida Owens, a sister of the judge, found the bomb when she opened the vestibule door to get the morning papers. She carried it into the house, where the judge himself unwrapped it from the wet newspaper with which it was encased.

"I thought first it was some sort of a joke," said the judge yesterday. "Then when I saw that the fuse evidently had been lighted I thought I had better turn it over to the police, which I did. I can't imagine what would prompt anyone to blow up my house, and I am thinking it will later be found to have been a joke."

When the lead casing of the bomb had been cut into by the police, it was seen to contain a coarse, reddish powder, which had become wet. It is believed by the police to be high blasting powder, and the bomb was sent to the bureau of explosives.

NEW HAMPSHIRE CITIES.

Population of Concord Is Now 21,497.

Boston, Jan. 12.—Census reports of the population of the cities of New Hampshire, sent out from Washington yesterday, give Concord a present population of 21,497, an increase of 1,865 over 1900, when the number of people in the city was 19,632.

The figures sent out are for Concord, Dover, Berlin, Portsmouth, Keene, Laconia, Franklin, Rochester and Somersworth.

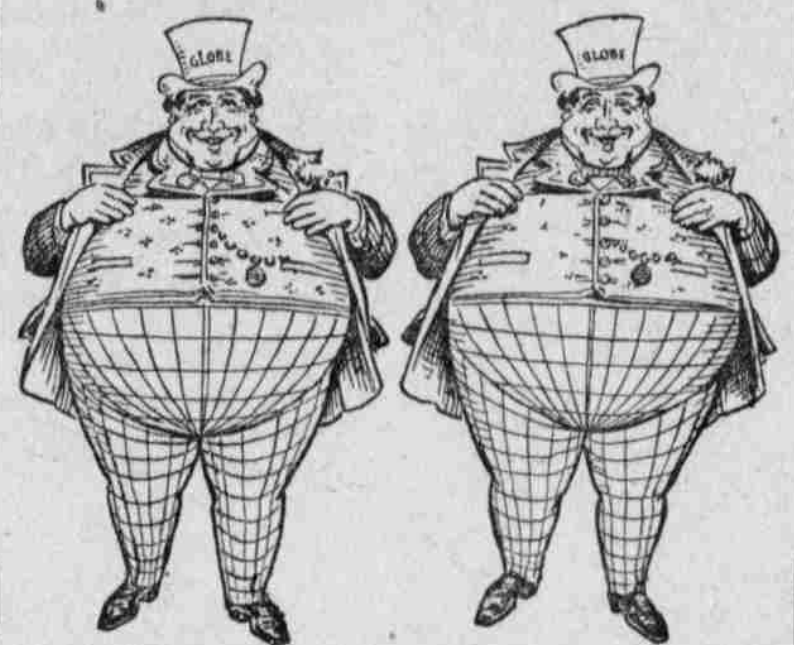

A feature of the figures is the fact that Berlin has passed Portsmouth and is now fifth in rank of the 12 cities of the state, the ancient city by the sea dropping to sixth place.

Concord's gain is not quite what was anticipated, the local estimates generally crediting the city with a population of 22,500.

In 1900, Dover had 13,207 people and now has 13,247, a very small gain; Berlin's present population is 11,780, compared with 8,886 in 1900; Portsmouth has increased from 10,637 to 11,269; Laconia has advanced from 8,042 to 10,138; Keene, which led Laconia in 1900, with 9,165 people, now falls behind, having a population of 10,068; Rochester's figures are, respectively, 8,868 and 8,466; Somersworth's, 6,704 and 7,023; and Franklin's, 6,132 and 5,846.

Manchester's population, as previously announced, is 70,063, an advance from 66,987 in 1900, while Nashua has 26,005 people, compared with 23,898 a decade ago. Of New Hampshire towns, Claremont has a population of 7,529, greater than that of either Somersworth or Franklin, whereas it had but 6,489 in 1900; Derry has gained from 2,383 to 3,123; and Lebanon claims 5,718, a jump from 4,905.

A Liberal Education Every Day

Among the many features in the Boston Globe are:

- "A Daily Lesson in History."
- "A Famous Gem of Wit, Wisdom and Eloquence."
- "A Daily Travel Letter by William E. Curtis."
- "A Selected Poem."
- "Instructive Editorials."

No wonder the Globe is used by school teachers. It contains a liberal education every day.

REMEMBER THAT

Asa Spades Vivian and Viola

and other good, humorous features appear only in the Boston Globe.

In Friday's and Saturday's Globe will appear:

- Gems of Wit, Wisdom and Eloquence**
FRIDAY, Jan. 13—"Origin of Slavery's Law," by Charles Sumner.
SATURDAY, Jan. 14—"Pensions for Prisoners of War," by James O'Donnell.
- Your Favorite Selection**
FRIDAY, Jan. 13—"The Old Oak Bucket," by Samuel Woodworth, and "Carving a Name," by Horatio Alger.
SATURDAY, Jan. 14—"The Beggar," by James Russell Lowell.

Join the Boston Globe's School Tomorrow

and in addition to its many educational features you will find it a newspaper that will please you and all your family.

Another beautiful picture and an essay to hold it, Free, with next Sunday's Boston Globe. The Demand for the Sunday Globe will be tremendous. Make sure of your copy by ordering from your newsdealer today.

FARRELL TO SUCCEED COREY.

Head of Steel Products Co. Will Be President of the Steel Corporation.

New York, Jan. 12.—James A. Farrell of Brooklyn is the choice of the finance committee of the United States steel corporation, to succeed William Ellis Corey as president. After a meeting of the committee Tuesday, Chairman Gary issued this statement:

"The finance committee of the United States steel corporation, after consulting individual members of the board of directors not on the committee, has unanimously decided to recommend to the board at its next regular meeting the election of James A. Farrell as president of the corporation."

"Mr. Farrell has been the president of the United States Steel Products company ever since its organization in 1903, and as such has demonstrated great business ability. He has been connected with the manufacturing and commercial departments of the iron and steel industry for more than twenty-five years and is well qualified to fill the position. It is believed the selection will be gratifying to all of the officials of subsidiary companies and to everyone connected with the industry."

BREAKS A COLD IN JUST A FEW HOURS

Proves Quinine Is Never Effective in the Cure of a Severe Cold or the Grippe.

Nothing else that you can take will break your cold or grippe so promptly as a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

The most miserable penitential pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatism pains and other distress begin to leave after the very first dose.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe. Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25 cent package of Pape's Cold Compound, which any druggist in the world can supply.

Hair Help Ayer's Hair Vigor has no effect whatever upon the color of the hair. It cannot possibly change the color in any way. But it promptly stops falling hair, and greatly promotes growth. Ask your doctor first.

122 North Main Street,

Barre, Vermont

LAMENESS OF THE SHOULDER

Dr. A. C. Daniels

The frequent lameness in the shoulder warrants a brief mention of this trouble. The complex structure, although naturally well protected by its muscular envelope, is frequently the seat of injuries difficult to determine and effectively treat—the bone forming the skeleton of that region is connected in a loose way with the bones of the arm, the joint being much strengthened by the tendons passing on all sides of it. Shoulder lameness may exist from lacerations of the muscles, tendons or ligaments of the joint, or disease of the bone itself. A simple superficial injury may easily be overcome, but those of a more serious nature are often impossible of a satisfactory treatment. The frequent attacks of shoulder lameness resulting from falling with severe concussion, a serious or violent straining of the muscles in starting too heavy a load, a misstep, a jump with disastrous landing, slipping on a smooth or icy road, falling with snow, or collision with any object and many similar accidents. Shoulder lameness is often confounded with navicular and other forms of lameness, and many times navicular disease really existing is termed shoulder lameness and treated as such, without doing the animal any good.

The symptom to be noted in shoulder lameness is continued lameness, and is more marked in diseased bones than muscles and in action the shoulder blade and upper arm are almost immobile, thus displacing the entire mass, and the leg in moving is drawn forward with no extension of flexion.

water showers and hot water fomentations, followed by stimulating liniments, blister, setons, etc.; no matter what else you may do, absolute rest is of the utmost importance, and a good big rest, too.

Elbow muscles become sprained some times and is thought to be shoulder lameness. Heavy horses which are shod smooth, driven rapidly upon slippery street or pavement, are frequent sufferers from this form of injury; when in action, a rapid gait is out of the question, while the walk shows a pronounced dropping of the anterior part of the trunk, the entire weight being thrown upon the other side; heat, pain and swelling is found at the elbow. The treatment again is absolute rest for an extended period, cold water applications, hot fomentations, stimulating liniment and rest, as in shoulder lameness.

Lorimer Resolution Sent to Committee. Washington, Jan. 12.—Senator Owen's resolution declaring the election of Senator Lorimer to be illegal and void was formally read in the Senate yesterday and referred to the committee on privileges and elections. Mr. Owen was not present.
